

Dear Colleague:

Online child pornography investigation and prosecution is a complex and technical process due to the nature of offenses that are committed via the Internet and computers. Recognizing the need for specialized knowledge to protect Illinois' children from these predators, **I am pleased to invite you to a training on Managing Child Pornography Offenders in the Community.**

This training will educate law enforcement officials, probation officers, and prosecutors on the digital trail offenders leave behind online and include investigation techniques, tips concerning the collection of Internet Protocol (IP) addresses and an overview of laws that apply to online predators.

I encourage every law enforcement department to participate in this important training. There is no charge for the training and your registration form is below. I hope you can join us.

Very truly yours,

LISA MADIGAN
Illinois Attorney General
